## *Why do you need a Cancer Value (Plus) policy?*

The American Cancer Society (ACS) states that one in two American men and one in three American women will get cancer in their lifetimes. The ACS also states that 65% of cancer related expenses are **not** covered by regular health insurance.\*

There are many ways to help ward off cancer by following a healthy diet, getting regular exercise, wearing sunscreen, quitting smoking, etc. But, if there is a diagnosis of cancer, the cancer and its treatment are a significant emotional and financial burden on the family. By knowing there is a cash payment policy in place, the financial burden will be less. This policy does not coordinate benefits. This means you will receive the full benefit amount in addition to any other insurance coverage that you may already have in place. Also, it pays one cash payment directly to you, the policyholder. You choose where and when to spend the money.

## *Who may be a likely candidate for a Cancer Value Plus or Cancer Value policy?*

- Someone who may not have enough savings to cover medical expenses, loss of income, transportation, hotel stays when seeking treatment away from home, childcare, housekeeping, home nursing care, etc.
- Anyone with a family history of cancer
- A person whose health insurance does not cover cancer related expenses or treatments
- The sole wage earner of the family
- One who strives to protect family assets
